

# Managed Services

*Managed Services* is our hosted solution, allowing your practice to use the *Centricity® Practice Solution* without having to experience the headaches of running your own network.

## Benefits & Value

- ◆ Eliminate data maintenance
- ◆ Eliminate Database (i.e. SQL) & Operating System (i.e. Windows) Upgrades
- ◆ Eliminate System Configuration Initial Set Up
- ◆ Eliminate On-site Server Equipment & Replacement
- ◆ Reduce the Payment of Annual Software Maintenance & Upgrades
- ◆ Heavily Reduce employing IT Staff or having to hire an IT Consulting Service
- ◆ No longer worry about the security of or loss of data

**M**anaged Services is an option we offer physician practices that prefer not to maintain a client-server. Hosting is very practical for offices that do not have IT support to manage the practice's network, upgrades, database maintenance, backups, security and to run overall system performance checks on a routine basis.

Our IT experts will be able to protect your application and data through our hosted service offering so your practice can remain managing its first priority - patient care.

### Low Upfront Costs

For a reasonable monthly subscription, you could have your network ran and maintained by experts 24x7

while you utilize performance-driven EMR and practice management technology - *Centricity Practice Solution*.

If your practice has ever experienced the aches and pains with system networking, hiring IT staff, security over data, networking multiple office locations, or if you have ever lost important clinical or financial data, then contact us to learn more about our *Managed Services*.

### Security

Our Managed Services solution is compliant with privacy regulations and is encrypted so patient data is safe and secure. ◆
