

Point of Sale Manager

It's a one stop shop! GE's Centricity™ Practice Solution combined with a sales transaction and inventory control platform. Effectively observe and track all retail activity within one system.

Benefits of Point of Sale Manager:

- ◆ Easily manage inventory with barcode technology
- ◆ Maintain accurate records of inventory in real-time
- ◆ Apply and track patient Discounts
- ◆ Access precision financial reporting through Centricity
- ◆ Employ quick claim submission

You have a premier system already implemented to accurately chronicle clinical care, claim submission and reimbursements, but what about the day-to-day operations of your medical shop?

Point of Sale Manager (POS) is designed to efficiently maintain the inventory and sales data within your office, keeping you up to date regarding the activity and financials of your retail business. Its integrated directly with Centricity, so charge entry and claims processing is shared across systems.

Inventory Management

Easily track inventory through barcode scanning technology that uploads into the POS operating system. Generate reports that provide real-time data on existing stock.

Reporting output lends control over order fulfillment. Trend reporting allows you to order enough quantity to support purchasing demands, without over-ordering.

Sales Activity & Financial Reporting

Identify profit and loss financials to effectively assess and measure sales transactions. Various business performance reports are attainable through the integration with Centricity. Collaborative reporting capabilities, allow your billing staff a 360° view across your system, while securing the transmission of patient billing between systems.

Discounts are easily applied and tracked during the sales process. With a couple of clicks, patient claims can quickly pass from POS Manager directly into Centricity's billing component, eliminating additional data entry, redundancy of tasks, and preventing the loss of data.

Automate processes and quickly capture real-time statistics of your inventory and sales transactions. Practical, yet intuitive tools, provide the support you need to successfully run your business. ◆
