

Community Health Center Manager

Our Community Health Center Manager solution collects mandated data and provides detailed reports that meet federal criteria as required for FQHC/RHC requirements.

Benefits & Value

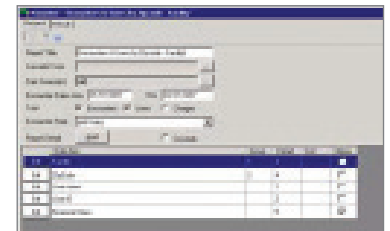

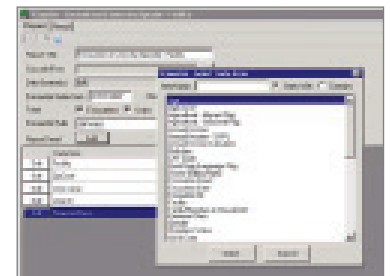

- ◆ User-defined data screens for demographic and encounter-specific data
- ◆ Simplified charge entry and payment posting
- ◆ Electronic billing submission and remittance for HCFAs and UB-92 claims, and UGS Medicare and state Medicaid
- ◆ Automatic generation of claims according to Medicare and Medicaid reimbursement rules
- ◆ Extensive support for complex sliding fee scale policies
- ◆ Reliable support for UDS reports and other data analysis through drill-down reporting

Community Health Center Manager is a solution designed specifically for FQHCs and RHCs. The software is seamlessly integrated with GE Healthcare's Centricity™ Practice Solution, providing a complete solution that meets the unique needs of Community Health Centers.

Robust Reporting Solutions:

- UDS Reports are updated annually as federal requirements are released
- Drill-down reporting capabilities allow intense data analysis
- Integration capability allows statistics from third party dental software solutions to be incorporated into annual UDS reports
- Extensive reporting resources meet state and federal standards
- Easy to use reporting interface

NO CRYSTAL REPORTS ◆
