

Procedure Fee Update Manager

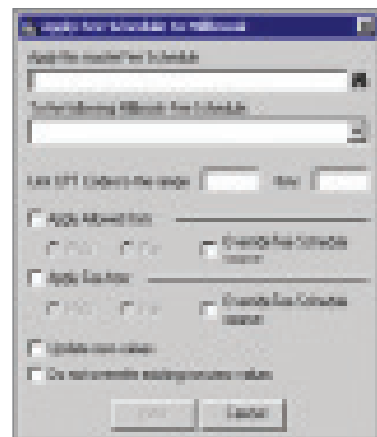

Virtual OfficeWare Healthcare Solution's Procedure Fee Update Manager allows practices to easily import new procedure fee schedules electronically.

Benefits & Value

- ◆ Import payers' fees that are available electronically.
- ◆ Data fields contained in the source file (i.e., flat fees, RVUs, facility fees, non-participating fees) are mapped to the fee or the allowed amount in the Centricity procedure table.
- ◆ Copy fees, adjust by applying formulas and create new fees.

Procedure Fee Update Manager is a flexible utility that reads payer fee information from electronic data sources and applies the information to Centricity™ Practice Management fee schedules.

Office staff will be able to import new fee schedules into Procedure Fee Manager with minimum clicks. Procedure Fee will only update fees to the existing procedure codes already in your Centricity database. ◆

Apply Fee Schedule Screen
