

# MultiDoc Faxing Solution

Now you can send multiple documents to multiple recipients from a patient chart without ever leaving GE Centricity™ Practice Solution!

## Benefits of MultiDoc:

- ◆ Fax multiple pages to multiple recipients
- ◆ 100% secure transmission
- ◆ Full audit trail in the chart for every faxed document
- ◆ Enter fax numbers on the fly; recipients don't have to be setup in the system
- ◆ Support HIPAA compliance and other regulatory mandates
- ◆ Cut document delivery costs
- ◆ Reduce paper-handling and manual processes
- ◆ Eliminate phone calls to share lab results

MultiDoc is an easy-to-use, easy-to-deploy and affordable way to streamline business processes, reduce administrative costs, support HIPAA compliance initiatives, and fulfill HITECH Act requirements for Meaningful Use.

## Cutting-Edge Fax Solution

Healthcare providers must adhere to strict compliance standards and compounding operational costs. Quick and secure communication of sensitive documents, such as patient information, is essential for patient-oriented healthcare organizations. If healthcare providers are to remain profitable, they must implement cutting-edge solutions to address the problem of confidential document transmission.

MultiDoc offers the benefit of being compatible with attachments stored in encrypted third-party document management solutions, such as InDxLogic.

The integration of MultiDoc with GE Centricity CPS streamlines business processes for healthcare providers. It also minimizes paper waste and increases productivity, while optimizing the EHR system by making it easy to:

- Fax prescriptions to pharmacies
- Fax patient health information from physician to physician

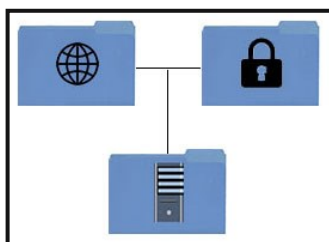

- Fax lab/imaging results
- Fax physician orders

MultiDoc, a secure, accessible fax server add-on application, creates more efficiency and security in the healthcare workplace. It allows healthcare providers to devote more time to patient care than to the hassles of manual faxing. GE Centricity users who utilize MultiDoc can expect to reap such benefits as:

- Secure and efficient information delivery—reduction of your organization's exposure to risk
- Improved patient care through timely information exchange
- HIPAA compliance throughout fax transmission and storage
- Further increase "Meaningful Use" of electronic health records
- Integrate with third-party electronic document management systems

## Communicate with Confidence

MultiDoc eliminates steps in the faxing process, reduces your organizations' exposure to risk, and makes faxing quick and easy. This fax solution offers secure "point-to-point" communications with encrypted delivery options that ensure the documents integrity. ◆
