

HIE Receive and Incorporate Measure Requires Regulatory Hotfix

We've identified the need for **all customers**, reporting on the MIPS Promoting Interoperability (PI) category, to implement the regulatory hotfix available to those on CPS 12.3 or CEMR 9.12 service pack 2 or higher. This needs to be completed immediately to maximize your opportunity for MIPS Promoting Interoperability. The regulatory hotfix includes a new version of the Reconciliation form that is required for reconciled CCDAs to meet the numerator criteria for the Receiving and Incorporating Health Information measure in CQR.

You can find the regulatory hotfix by choosing Community > Product Downloads > Core Product Downloads > Patches > Service Layer Hotfix for Regulatory Measures.

For assistance or questions, contact Support Services at 1-888-436-8491 option 2, followed by option 3 for technical questions and option 4 for clinical and quality reporting questions.
